## **B-5023 HFO RESIN**

| SAFETY DATA SHEET (SDS)                              |  |  |
|--|--|--|
| SECTION 1: PRODUCT AND COMPANY IDENTIFICATION        |  |  |
| MANUFACTURER/INITIAL SUPPLIER IDENTIFIER             | PRODUCT NAME AND RECOMMENDED USE                           |  |
| GENYK Inc.   | Identifier/Trade Name: B-5023 HFO RESIN                    |  |
| 1701, 3 <sup>rd</sup> Avenue, Shawinigan, QC, G9T2W6 | Chemical Name: Polyurethane Resin                          |  |
| Phone: 819-729-0395 / Fax: 819-729-0383              | Chemical family: Polyol Resin Blend                        |  |
|  | Use & Restrictions: Component of a spray polyurethane foam |  |
|  | system   |  |
| Emergency Telephone number                           | CANUTEC 24-Hour number 613-996-6666                        |  |
|  | CHEMTREC 24-Hour number 800-424-9300                       |  |

| SECTION 2: HAZARDS IDENTIFI | CATION   |  |  |
|-----------------------------|--|--|--|
| Classification of the       | ACUTE TOXICITY, ORAL – Category 4  |  |  |
| Hazardous Product (Name of  | SKIN CORROSION / IRRITATION – Category 2   |  |  |
| the Category or Subcategory | SERIOUS EYE DAMAGE / EYE IRRITATION – Category 2A  |  |  |
| of the Hazard Class)        | REPRODUCTIVE TOXICITY – Category 1A  |  |  |
|                             | SPECIFIC TARGET ORGAN (Kidney) TOXICITY, REPEATED EXPOSURE – Category 2                          |  |  |
| Hazardous Pictograms        |  |  |  |
| Signal Word (GHS)           | Danger   |  |  |
| Hazardous Statements        | H302 – Harmful if swallowed.   |  |  |
|                             | H315 – Causes skin irritation.   |  |  |
|                             | H319 – Causes serious eye irritation.  |  |  |
|                             | H360 – May damage fertility or unborn child.   |  |  |
|                             | H373 – May cause damage to organs (Kidney) through prolonged or repeated exposure.               |  |  |
| Precautionary Statements    | P201 – Obtain special instructions before use.   |  |  |
|                             | P202 – Do not handle until all safety precautions have been read and understood.                 |  |  |
|                             | P260 – Do not breathe dust/fume/gas/mist/vapours/spray.  |  |  |
|                             | P264 – Wash skin thoroughly after handling.  |  |  |
|                             | P270 – Do not eat, drink or smoke when using this product.                                       |  |  |
|                             | P280 – Wear protective gloves/ protective clothing/ eye protection/ face protection.             |  |  |
|                             | P301 + P312 – IF SWALLOWED: Call a POISON CENTER/doctor if you feel unwell.                      |  |  |
|                             | P302 + P352 – IF ON SKIN: wash with plenty of water.   |  |  |
|                             | P305 + P351 + P338 – If in eyes: Rinse cautiously with water for several minutes. Remove contact |  |  |
|                             | lenses, if present and easy to do. Continue rinsing.   |  |  |
|                             | P308 + P313 – IF exposed or concerned: Get medical attention.                                    |  |  |
|                             | P314 – Get medical advice/attention if you feel unwell.  |  |  |
|                             | P330 - Rinse mouth.  |  |  |
|                             | P332 + P313 – If skin irritation occurs: Get medical advice/attention.                           |  |  |
|                             | P337 + P313 – IF eye irritation persists: Get medical attention.                                 |  |  |
|                             | P362 + P364 – Take off contaminated clothing and wash it before reuse.                           |  |  |
|                             | P405 – Store locked up.  |  |  |
|                             | P501 – Dispose of contents/container into safe container in accordance with local, regional or   |  |  |
|                             | national regulations.  |  |  |
| Other Hazard Known          | None   |  |  |

| SECTION 3: COMPOSITION AND INFORMATION ON INGREDIENTS  |                |                   |
|--|----------------|-------------------|
| Chemical name  | CAS # or other | Concentration (%) |
| (common name / synonyms)   |                |                   |
| Amine Polyol   | 940912-28-7    | 10.0 - 30.0       |
| Tris(1-chloro-2-propyl)phosphate   | 13674-84-5     | 8.0 - 18.0        |
| Ethylene Glycol  | 107-21-1       | < 3.0             |
| 1,1,3,3-tetramethylguanidine   | 80-70-6        | 0.1 - 3.0         |
| All ingredients are listed according to OSHA (29 CFR).   |                |                   |
| *Statement – This Safety Data Sheet provides concentration range(s) instead of the actual concentration(s) by weight (except for |                |                   |
| gases/propellants by volume) considered trade secret(s).   |                |                   |

**SECTION 4: FIRST-AID MEASURES** Eye Contact IF IN EYES: Rinse cautiously with water for several minutes (15-20). Remove contact lenses, if present and easy to do. Continue rinsing. **Skin Contact** IF ON SKIN: Take off immediately all contaminated clothing. Rinse skin with water (15-20 minutes). Wash contaminated clothing before reuse. Inhalation IF INHALED: Remove person to fresh air and keep comfortable for breathing. Immediately call a doctor. Ingestion IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. NEVER give anything by mouth if victim is rapidly losing consciousness, or is unconscious or convulsing. Rinse mouth thoroughly with water. Have victim drink two glasses of water. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration. Call a doctor if you feel unwell. **Most Important Symptoms and Effects** Causes skin irritation. Causes serious eye irritation. (Acute or Delayed) Indication of Immediate Medical In all cases, call a doctor. Do not forget this document. **Attention / Special Treatment** 

| SECTION 5: FIRE-FIGHTING MEASURES                                | SECTION 5: FIRE-FIGHTING MEASURES  |  |
|--|--|--|
| Specific Hazards of the Hazardous                                | Carbon oxides and other irritant/toxic gases and fumes.  |  |
| Product (Hazardous Combustion                                    |  |  |
| Products)  |  |  |
| Suitable and Unsuitable Extinguishing<br>Media                   | In case of fire: Use carbon dioxide, chemical powder agent and appropriate foam to extinguish surrounding products.  |  |
| Special Protective Equipment and<br>Precaution for Fire-fighters | During a fire, irritating/toxic smoke and fumes may be generated. Do not enter fire area without proper protection. Firefighters should wear proper protective equipment and self-contained breathing apparatus with full facepiece. Shield personnel to protect from venting, rupturing or bursting cans. Move containers from fire area if it can be done without risk. Water spray may be useful in cooling equipment and cans exposed to heat and flame. |  |

| SECTION 6: ACCIDENTAL RELEASE MEASURES                                 |   |
|--|---|
| Personal Precautions, Protective<br>Equipment and Emergency Procedures | Absorb spillage to prevent material-damage. Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should wear the appropriate protective equipment (See Section 8).   |
| Methods and Material for Containment<br>and Clean-up                   | Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb<br>any spilled liquid concentrate with inert absorbent material, then place material into<br>a container for later disposal (see Section 13). Contaminated absorbent material may<br>pose the same hazards as the spilled product. Notify the appropriate authorities as<br>required. |

| SECTION 7: HANDLING AND STORAGE                                 |   |
|---|---|
| Storage Temperature   | 15 – 25 °C (59 – 77 °F)   |
| Shelf Life  | 6 months  |
| Precautions for Safe Handling                                   | Wear protective gloves/ protective clothing/ eye protection/ face protection.<br>Before handling, it is very important that engineering controls are operating, and<br>that protective equipment requirements and personal hygiene measures are being<br>followed. People working with this chemical should be properly trained regarding its<br>hazards and its safe use. Inspect containers for leaks before handling. Label<br>containers appropriately. Ensure proper ventilation. Avoid breathing<br>dust/fume/gas/mist/vapours/spray. Avoid contact with eyes, skin and clothing.<br>Keep away from heat, sparks and flame. Avoid generating high concentrations of<br>dusts, vapours or mists. Keep away from incompatible materials (Section 10). Keep<br>containers closed when not in use. Empty containers are always dangerous. Refer<br>also to Section 8. |
| Conditions for Safe Storage, Including any<br>Incompatibilities | Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store<br>locked up. Store away from incompatible materials (Section 10). Inspect all incoming<br>containers to make sure they are properly labelled and not damaged. Storage area<br>should be clearly identified, clear of obstruction and accessible only to trained<br>personnel. Inspect periodically for damage or leaks.  |

| SECTION 8: EXPOSURE CONTROL / INDIVIDUAL PROTECTION               |   |  |
|---|---|--|
| Control Parameters (biological limit values                       | Exposure limits: None known   |  |
| or Exposure Limit Values and Sources of                           |   |  |
| those Values)   |   |  |
| Appropriate Engineering Controls                                  | Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.  |  |
| Individual Protection measures / Personal<br>Protective Equipment | Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure limits are unknown. Chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must be worn during all handling operations. Wear protective chemical splash goggles to prevent mists from entering the eyes. Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use. |  |

| SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES |                  |                           |                |
|---|------------------|---------------------------|----------------|
| Appearance, Physical State /                | Amber liquid     | Vapour Pressure           | Not available  |
| Colour                                      |                  |                           |                |
| Odour                                       | Characteristic   | Vapour Density            | Not available  |
| Odour Threshold                             | Not available    | Relative Density          | Not available  |
| рН  | Not available    | Solubility                | Not available  |
| Melting /Freezing Point                     | Not available    | Partition Coefficient –   | Not available  |
|   |                  | n-octanol/water           |                |
| Initial Boiling Point / Range               | Not available    | Auto-Ignition Temperature | Not available  |
| Flash Point                                 | > 93°C (>200 °F) | Decomposition             | Not available  |
|   |                  | Temperature               |                |
| Evaporation Rate                            | Not available    | Specific Gravity          | 1.16 to 1.18   |
| Flammability (Solids and                    | Not available    | Viscosity                 | 300 to 500 cps |
| Gases)                                      |                  |                           |                |
| Upper and Lower                             | Not available    | VOC                       | Not available  |
| Flammability / Explosive                    |                  |                           |                |
| limits                                      |                  |                           |                |
| Other                                       | None known       |                           |                |

| SECTION 10: STABILITY AND REACTIVITY |   |  |
|--------------------------------------|---|--|
| Reactivity                           | Does not react under the recommended storage and handling conditions prescribed.    |  |
| Chemical Stability                   | Stable under the recommended storage and handling conditions prescribed             |  |
| Possibility of Hazardous             | None known  |  |
| Reactions                            |   |  |
| <b>Conditions to Avoid (Static</b>   | Avoid exposure to moisture and low (< 0°C) and high temperatures. Avoid open flame. |  |
| Discharge, Shock or                  |   |  |
| Vibration)                           |   |  |
| Incompatible Materials               | Oxidizing materials; acids; etc.  |  |
| Hazardous Decomposition              | None known  |  |
| Products                             |   |  |

| SECTION 11: TOXICOLOGICAL INFORMATION      | I   |                                 |
|--|---|---------------------------------|
| Information on the Likely Routes of        | Harmful if swallowed. Causes skin irritation. Causes serious eye irritation. May  |                                 |
| Exposure (Inhalation, Ingestion, Skin and  | damage fertility or the unborn child. May cause damage to organs (kidney)   |                                 |
| Eye Contact)                               | through prolonged or repeated exposure.   |                                 |
| Symptoms Related to the Physical,          | Skin irritation, redness, stinging, pain; Eye   | e irritation, redness, tearing: |
| Chemical and Toxicological Characteristics | Digestive trac burn;  |                                 |
| U U  | Respiratory tract burn, irritation to throat, esophagus and stomach (nausea, abdominal pains, vomiting and diarrhea), cough, shortness of breath; |                                 |
|  | May cause headaches, dizziness, drowsiness, and other central nervous system  |                                 |
|  | effects.  |                                 |
|  | Skin Sensitization  | No data available               |
|  | Respiratory Sensitization   | No data available               |
|  | Germ Cell Mutagenicity  | No data available               |
|  | Carcinogenicity   | No data available               |
|  | Reproductive Toxicity   | Possible                        |
|  | Specific Target Organ Toxicity-   | No data available               |
|  | Single Exposure   |                                 |
|  | Specific Target Organ Toxicity-   | Possible                        |
|  | Repeated Exposure   |                                 |
|  | Aspiration Hazard   | No data available               |
|  | Health Hazard not Otherwise Classified  | No data available               |

| SECTION 12: ECOLOGICAL INFORMATION    |                                    |
|---------------------------------------|------------------------------------|
| Ecotoxicity                           | No data available for this product |
| (Aquatic and Terrestrial Information) |                                    |
| Persistence and Degradability         | No data available                  |
| Bioaccumulative Potential             | No data available                  |
| Mobility in Soil                      | No data available                  |
| Other Adverse Effects                 | No data available                  |

| SECTION 13: DISPOSAL CONSIDERATION          |   |
|---|---|
| Information on Safe Handling for Disposal / | Dispose of contents/container into safe container in accordance with local, |
| Methods of Disposal / Contaminated          | regional or national regulations.   |
| Packaging                                   |   |

| SECTION 14: TRANSPORTATION INFORMATION     |                      |
|--|----------------------|
| UN Number ; Proper Shipping Name;          | NOT REGULATED        |
| Class(es) ; Packing Group (PG) of the TDG  |                      |
| Regulations                                |                      |
| UN Number ; Proper Shipping Name;          | NOT REGULATED        |
