Technical Bulletin #138

**Subject: Adhesion of Genyk Boreal Nature Elite to CISC/CPMA Standard 1-73a Paint**

The adhesion of Boreal Nature Elite to products conforming to the CISC/CPMA Standard 1-73a exceeds the requirements of the CAN/ULC S705.2 Application Standard.

6.3.3 (one kg. at 70mm diameter, 50mm thickness)

NOTE: The CAN/ULC S705.2 Application Standard does not require primers to be used to clean, dry and scale-free surfaces. However, when spraying Boreal Nature Elite to steel surfaces that are primed or painted, the paint and/or primer should conform to the CISC/CPMA Standard 1-73a.
