**SECTION 2: HAZARDS IDENTIFICATION** 

SAFETY DATA SHEET (SDS)		
SECTION 1: PRODUCT AND COMPANY IDENTIFICATION		
MANUFACTURER/INITIAL SUPPLIER IDENTIFIER	PRODUCT NAME AND RECOMMENDED USE	
GENYK Inc.	Identifier/Trade Name: Elite A- PMDI	
1701, 3 <sup>rd</sup> Avenue, Shawinigan, QC, G9T2W6	Chemical Name: Aromatic Isocyanate	
Phone: 819-729-0395 / Fax: 819-729-0383	Chemical family: Isocyanate	
	Use & Restrictions: Component of a polyurethane system	
Emergency Telephone number	CANUTEC 24-Hour number 613-996-6666	
	CHEMTREC 24-Hour number 800-424-9300	

	I
Classification of the	ACUTE TOXICITY, INHALATION – Category 4
Hazardous Product (Name of	SKIN CORROSION / IRRITATION – Category 2
the Category or Subcategory	SERIOUS EYE DAMAGE / EYE IRRITATION – Category 2B
of the Hazard Class)	RESPIRATORY SENSITIZATION – Category 1
	SKIN SENSITIZATION – Category 1
	SPECIFIC TARGET ORGAN TOXICITY – SINGLE EXPOSURE (RESPIRATORY SYSTEM) –
	Category 3
Hazardous Pictograms	<u>•</u>
Signal Word (GHS)	Danger
Hazardous Statements	H315 – Causes skin irritation.
	H317 – May cause an allergic skin reaction.
	H320 – Causes eye irritation.
	H332 – Harmful if inhaled.
	H334 – May cause allergy or asthma symptoms or breathing difficulties if inhaled.
_	H335 – May cause respiratory irritation.
Precautionary Statements	P261 – Avoid breathing dust/fume/mist/vapours/spray.
	P264 – Wash skin thoroughly after handling.
	P271 – Use only outdoors or in a well-ventilated area.
	P272 – Contaminated work clothing should not be allowed out of the workplace.
	P280 – Wear protective gloves/ protective clothing/ eye protection/ face protection.
	P284 – [In case of inadequate ventilation] wear respiratory protection.
	P302 + P352 – IF ON SKIN: wash with plenty of water.
	P304 + P340 – IF INHALED: Remove person to fresh air and keep comfortable for breathing.
	P305 + P351 + P338 – If in eyes: Rinse cautiously with water for several minutes. Remove contact
	lenses, if present and easy to do. Continue rinsing.
	P312 – Call a POISON CENTER/doctor if you feel unwell.
	P333 + P313 – If skin irritation or rash occurs: Get medical advice/attention.
	P337 + P313 – IF eye irritation persists: Get medical attention.
	P342 + P311 – If experiencing respiratory symptoms: Call a POISON CENTER/doctor.
	P362 + P364 – Take off contaminated clothing and wash it before reuse.
	P403 + P233 – Store in a well-ventilated place. Keep container tightly closed.
	P405 – Store locked up.
	P501 – Dispose of contents/container into safe container in accordance with local, regional or
	national regulations.

Other Hazard Known	None
--------------------	------

SECTION 3: COMPOSITION AND INFORMATION ON INGREDIENTS			
Chemical name	CAS # or other Concentration (%)		
(common name / synonyms)			
Diphenylmethane 4,4'-diisocyanate	101-68-8	30 - 60	
Polymethylene polyphenylene isocyanate	9016-87-9	60 - 100	

All ingredients are listed according to OSHA (29 CFR).

<sup>\*</sup>Statement – This Safety Data Sheet provides concentration range(s) instead of the actual concentration(s) by weight (except for gases/propellants by volume) considered trade secret(s).

SECTION 4: FIRST-AID MEASURES		
Eye Contact	<b>IF IN EYES:</b> Rinse cautiously with water for several minutes (15-20). Remove contact lenses, if present and easy to do. Continue rinsing.	
Skin Contact	<b>IF ON SKIN</b> : Take off immediately all contaminated clothing. Rinse skin with water (15-20 minutes). Wash contaminated clothing before reuse.	
Inhalation	<b>IF INHALED:</b> Remove person to fresh air and keep comfortable for breathing. Immediately call a doctor.	
Ingestion	<b>IF SWALLOWED</b> : Rinse mouth. Do NOT induce vomiting. NEVER give anything by mouth if victim is rapidly losing consciousness, or is unconscious or convulsing. Rinse mouth thoroughly with water. Have victim drink two glasses of water. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration. Call a doctor if you feel unwell.	
Most Important Symptoms and Effects (Acute or Delayed)	Causes skin irritation. Causes serious eye irritation.	
Indication of Immediate Medical Attention / Special Treatment	In all cases, call a doctor. Do not forget this document.	

SECTION 5: FIRE-FIGHTING MEASURES		
Specific Hazards of the Hazardous	Carbon oxides and other irritant/toxic gases and fumes.	
Product (Hazardous Combustion		
Products)		
Suitable and Unsuitable Extinguishing	In case of fire: Use carbon dioxide, chemical powder agent and appropriate foam to	
Media	extinguish surrounding products.	
Special Protective Equipment and	During a fire, irritating/toxic smoke and fumes may be generated. Do not enter fire	
Precaution for Fire-fighters	area without proper protection. Firefighters should wear proper protective	
	equipment and self-contained breathing apparatus with full facepiece. Shield	
	personnel to protect from venting, rupturing or bursting cans. Move containers from	
	fire area if it can be done without risk. Water spray may be useful in cooling	
	equipment and cans exposed to heat and flame.	

SECTION 6: ACCIDENTAL RELEASE MEASURES		
Personal Precautions, Protective Equipment and Emergency Procedures	Absorb spillage to prevent material-damage. Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should wear the appropriate protective equipment (See Section 8).	
Methods and Material for Containment and Clean-up	Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then place material into a container for later disposal (see Section 13). Contaminated absorbent material may pose the same hazards as the spilled product. Notify the appropriate authorities as required.	

SECTION 7: HANDLING AND STORAGE		
Storage Temperature	10.0 – 37.8 °C (50 –100 °F)	
Shelf Life	12 months	
Precautions for Safe Handling	Wear protective gloves/ protective clothing/ eye protection/ face protection.  Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers for leaks before handling. Label containers appropriately. Ensure proper ventilation. Avoid breathing dust/fume/gas/mist/vapours/spray. Avoid contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to Section 8.	
Conditions for Safe Storage, Including any Incompatibilities	Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10). Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks.	

SECTION 8: EXPOSURE CONTROL / INDIVIDUAL PROTECTION		
Control Parameters (biological limit values	Exposure limits: CAS 101-68-8 ACGIH – TLV – TWA 0.005ppm;	
or Exposure Limit Values and Sources of	CAS 9016-87-9 ACGIH – OSHA Z1 0.02ppm	
those Values)		
Appropriate Engineering Controls	Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.	
Individual Protection measures / Personal Protective Equipment	Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure limits are unknown. Chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must be worn during all handling operations. Wear protective chemical splash goggles to prevent mists from entering the eyes. Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use.	

SECTION 9: PHYSICAL AND CHE	MICAL PROPERTIES		
Appearance, Physical State /	Brown liquid	Vapour Pressure	0.00001 mmHg at 20°C
Colour			
Odour	Characteristic	Vapour Density	Not available
Odour Threshold	Not available	Relative Density	Not available
рН	Not available	Solubility	Not available
Melting /Freezing Point	Not available	Partition Coefficient –	Not available
		n-octanol/water	
Initial Boiling Point / Range	Not available	Auto-Ignition Temperature	Not available
Flash Point	Close cup: > 150°C (>302 °F)	Decomposition	Not available
	Open cup: 230°C (446 °F)	Temperature	
<b>Evaporation Rate</b>	Not available	Specific Gravity	1.22 – 1.25
Flammability (Solids and	Not available	Viscosity	150 to 250 cps
Gases)			
Upper and Lower	Not available	voc	Not available
Flammability / Explosive			
limits			
Other	None known		

SECTION 10: STABILITY AND REACTIVITY		
Reactivity	Does not react under the recommended storage and handling conditions prescribed.	
Chemical Stability	Stable under the recommended storage and handling conditions prescribed	
Possibility of Hazardous	Reaction with water (moisture)produces CO <sub>2</sub> gas. Exothermic reaction with materials containing	
Reactions	active hydrogen groups. The reaction becomes progressively more vigorous and can be violent at higher temperatures if the miscibility of the reaction partners is good or is supported by stirring or by the presence of solvents. MDI is insoluble with, and heavier than water and sinks to the bottom but reacts slowly at the interface. A solid water-insoluble laver or polyurea is formed at the interface by liberating carbon dioxide gas.	
Conditions to Avoid (Static	Avoid high temperatures.	
Discharge, Shock or		
Vibration)		
Incompatible Materials	Water, alcohols, amines, bases and acids.	
Hazardous Decomposition	Combustion products may include: Carbon oxides (CO, CO <sub>2</sub> ) nitrogen oxides (NO, NO <sub>2</sub> )	
Products	hydrocarbons and HCN.	

SECTION 11: TOXICOLOGICAL INFORMATION			
Information on the Likely Routes of	Causes skin irritation. Causes eye irritation. May cause respiratory tract irritation.		
Exposure (Inhalation, Ingestion, Skin and	May cause an allergic skin reaction. May cause allergy or asthma symptoms or		
Eye Contact)	breathing difficulties if inhaled. May caus	e respiratory irritation.	
Symptoms Related to the Physical,	Skin irritation, redness, itching, swelling, rash.		
Chemical and Toxicological Characteristics	Eye irritation, redness, tearing, stinging, swelling.		
	Respiratory tract burn, coughing, shortne	ss of breath	
	Skin Sensitization	Possible	
	Respiratory Sensitization	Possible	
	Germ Cell Mutagenicity	No data available	
	Carcinogenicity	No data available	
	Reproductive Toxicity	No data available	
	Specific Target Organ Toxicity- Causes temporary irritation of the		
	Single Exposure	respiratory tract.	
	Specific Target Organ Toxicity-	No data available	
	Repeated Exposure		
	Aspiration Hazard	No data available	
	Health Hazard not Otherwise Classified	No data available	
Numerical Measures of Toxicity	LD <sub>50</sub> Oral - Rat - > 10,000 mg/kg LC <sub>50</sub> Inh Rat - 1.36 mg/l 4hr;		
(ATE; LD <sub>50</sub> &LC <sub>50</sub> )	ATE not available in this document.		

SECTION 12: ECOLOGICAL INFORMATION	
Ecotoxicity	No data available for this product
(Aquatic and Terrestrial Information)	
Persistence and Degradability	No data available
Bioaccumulative Potential	No data available
Mobility in Soil	No data available
Other Adverse Effects	No data available

SECTION 13: DISPOSAL CONSIDERATION	
Information on Safe Handling for Disposal /	Dispose of contents/container into safe container in accordance with local,
Methods of Disposal / Contaminated	regional or national regulations.
Packaging	

SECTION 14: TRANSPORTATION INFORMATION	
UN Number; Proper Shipping Name;	NOT REGULATED
Class(es); Packing Group (PG) of the TDG	
Regulations	
UN Number; Proper Shipping Name;	NOT REGULATED
Class(es); Packing Group (PG) of the IMDG	
(Maritime)	
Sea Transport IMDG UN Number; Proper	NOT REGULATED
Shipping Name; Class(es); Packing Group	
(PG) of the IATA (Air)	
Special Precautions	None
(Transport / Conveyance)	
Environmental Hazards (IMDG or other)	Refer to Section 12.
Bulk Transport (usually more than 450 L in	Possible
capacity)	

SECTION 15: REGULATORY INFORMATION	
Safety / Health Canadian Regulations	Refer to Section 2 for the appropriate classification. This product has been
Specifics	classified in accordance with the hazard criteria of the Hazardous Products
	Regulations (HPR).
<b>Environmental Canadian Regulations</b>	Refer to Section 3 for ingredient(s) of the DSL
Specifics	
Safety / Health / Environmental Outside	United States OSHA information:
Regulations Specifics	This product is regulated according to OSHA (29 CFR).
	United States EPA (Environmental Protection Agency) information:
	40 CFR Refer to the ingredients listed in Section 3 & Sections 12; 13 & 14.
	United States TCSA information: Refer to the ingredients listed in Section 3.
	National Fire Protection Association (NFPA):
	HEALTH: 2 FLAMMABILITY: 1 INSTABILITY: 1
	SPECIAL HAZARDS: Refer to Section 2 & 3.
	HAZARD SCALE: 0 = Minimal 1 = Slight 2 = Moderate 3 = Serious 4 =
	Severe
	Proposition 65: This product does not contain a chemical known to the State of
	California to cause cancer or other reproductive harm.
